

Chimps Are Champs

The Animal Hockey League has four teams: the Chimps, Wombats, Zebras and Lions.

Each team plays the other three and the league table is given below, where a win counts 2 points, a draw 1 point and a defeat no points.

Unfortunately, all the league secretary (an Elephant) can remember is that the Zebras drew 1-1 against the Lions.

Your job is to work out the scores in all the six games played.

	Games Played	Games Won	Games Drawn	Game Lost	Goals For	Goals Against	Points
Chimps	3	2	1	0	5	1	5
Wombats	3	0	3	0	0	0	3
Zebras	3	0	2	1	2	3	2
Lions	3	0	2	1	1	4	2
